

The new HIGH-FREQUENCY coupler is here

G.R.A.S. 43BA 1/4" 0.4cc
High-frequency Coupler

G.R.A.S.
SOUND & VIBRATION

Designed for – and with the industry

New volume

Combined with the 1/4" microphone, the 0.4cc volume allows diagnostics up to 16 kHz.

Compatible adapters

The 0.4cc coupler body fits all G.R.A.S. 1/2" 2cc standard ear mould and tube adapters.

1/4" microphone

The coupler is equipped with a standard 1/4" pressure microphone set for Lemo or CCP connection.

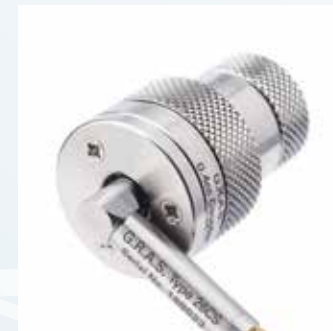

Easy calibration

The microphone set is easily removed – without tools – for sensitivity calibration.

Safe data

The microphone set is locked and kept firmly in position to eliminate measurement errors.

Small smaller...

The coupler kit is multi-configurable and the smallest solution available.
